Description

From its sittable front porch to its family-friendly fenced back yard, this Summerville home has everything. On Dacs Lane, within walking distance of Sheppard Park, the corner lot is almost a half-acre. Inside, there's 2,700 square feet of practical living space. Off the foyer is the formal dining room. The kitchen has a breakfast area, plentiful cabinets and counter space, as well as a spacious pantry and a built-in desk for work. A gas fireplace adds warmth to the living room. From the living room there's access to the screened porch and relaxation-ready backyard. The above-ground pool, installed in 2021, is surrounded by decking to give it a built-in feel. The gazebo has potential as an outdoor kitchen. The first-floor primary bedroom has two closets (one with custom shelving) and private access to the screened porch and the primary bath includes a spacious linen closet. Also downstairs are a half bath and the laundry room, which can be entered from inside the house or from the two door car garage. Upstairs are three bedrooms and two full baths, plus a loft that could function as an office or play area. One bedroom has a private bath, and the other two share an adjoining bath. There's plenty of closet space for everyone inside, and enough parking for everyone outside with two entrances into the driveway. Don't miss out on your opportunity today, just imagine what this house can bring to you!
