Description

Charming All-Brick Home in Camden's Cool Springs Neighborhood. Welcome to Camden, SC, and the picturesque Cool Springs neighborhood! This well-loved, all-brick home has been meticulously maintained by its original owner since 1966, with thoughtful updates enhancing its charm and functionality over the years. Inside, you'll find three bedrooms, two and a half bathrooms, and formal living and dining spaces across 2,681 square feet of comfortable living space. An enclosed garage has been transformed into a versatile activity room with a half bath and workroom, while the updated kitchen and primary bath add modern appeal. A bright and airy sunroom (an additional 315 square feet, fully air-conditioned) offers the perfect spot to relax and unwind. Plantation shutters throughout the home add a classic touch. Sitting on 0.54 acres, the beautifully landscaped yard showcases blooming southern azaleas and dogwoods, a freshly cleaned driveway and sidewalk, and a older, small outbuilding ideal for extra storage. A well supplies irrigation for easy lawn maintenance, and a U-shaped driveway provides ample parking and convenience. If you're searching for southern charm and timeless comfort, this home is a must-see! Disclaimer: CMLS has not reviewed and, therefore, does not endorse vendors who may appear in listings.
