Beautiful, three bedroom, two full bath new construction on a spacious lot. This 2024 features an open floor plan living space with vaulted ceilings, granite countertops, center island, stainless steel appliances, and access to a large deck overlooking a small creek in the back. The master suite is oversized with walk in closet, custom tile shower, and his and her vanities. Two additional bedrooms, and a full bath with shower tub combination are located on the other end of the house. Home also features a dedicated laundry room, two car attached garage, and tons of added features such as built in linen closets in the hallway, custom drop station with bench seating in the mudroom, and so much more. Builder is finishing up the house now and should be ready to close in two weeks or less.
