Other

- None

Description

This brick ranch offers the kind of space and flexibility that's getting harder to find — especially in such a convenient location. With a new roof (2024), new septic system (2023), new LVP flooring, new carpet, and a beautifully remodeled primary bath featuring custom tile work, wood ceiling, and thoughtful finishes, many of the big-ticket items are already checked off. The main level offers four bedrooms plus a versatile flex room perfect for work, play, or whatever else life throws your way. Two separate living rooms give everyone room to breathe, and a future kitchen remodel could take this home to the next level. Downstairs, the walk-out basement adds 1300+ square feet of finished space — ideal that hangout zone you've always wanted. All of this just minutes from Downtown Greenville and the Swamp Rabbit Trail.
