## Description

The Byrnes II is a craftsman-style ranch floor plan that has been customized with a loft and a second primary suite upstairs, transforming it into a spacious two-story home! As you enter, you are greeted by arched entryways, upgraded finishes and trim, and luxury vinyl plank flooring. To the right of the foyer is a spacious dining room with coffered ceilings. From there, you can either continue through the dining hall into the kitchen or proceed straight down the gallery to explore the rest of the home. The kitchen is privately tucked away from the gallery and offers ample cabinetry. Beyond the kitchen, the great room with vaulted ceilings provides the perfect space for entertaining. Adjacent to the great room and kitchen, you'll find the breakfast room and sunroom. The breakfast room is perfect for leisurely Sunday mornings, while the sunroom is extra spacious, making it ideal for recreation or even a home office. On the left side of the home, two downstairs bedrooms share a full bathroom between them. The primary suite, located at the back of the first floor for added privacy, boasts a sitting room with a fireplace and a vaulted ceiling. To top it all off, the upstairs features a second primary bedroom and a loft that overlooks the great room. This home also includes a side-entry two-car garage along with an additional two-car detached garage, providing ample storage and parking space.
