Description

Welcome to Avebury, an established community of patio homes. We noticed on entering that the development is well maintained and that the streets were free of parked cars. This home has a level driveway, enough parking for four cars, with easy access to the front door. The interior features an open concept combination of kitchen, dining area and great room. Sloped ceilings found in the living areas. Kitchen includes an eat in area and pantry. Pass thru the house out the new double french door into a fenced rear that includes a patio and small storage room. The unit is an end unit with an ample side and fenced rear yard. The primary bedroom is on the rear and its private bath includes a separate toilet and tub area, large vanity and also leads to a nice walk in closet. The second bedroom is on the front and has ensuite access to the second bathroom. Also enjoy a large utility room off of the living area.
