## Description

Property development is about adding value to land by renovating and reimagining its uses. As Ladson and its surrounding cities and communities expand, property development is a necessary process. Like light and new residential areas making way for smaller subdivisions or apartment buildings. The most successful property developers recognize trends before they happen. They notice how the city is growing and how demographics will shift. Therefore, I'm happy to introduce 126 Moses Extension. This large 5.63 acre lot is in a convenient location and has lots of potential. Located just a half mile from I-26 and US-78, less than a mile from the Fairgrounds and the Coastal Carolina Flea Market, Miles from Historic Downtown Summerville and Downtown Charleston
