- Central

Description

Stunning renovated one story brick home in the heart of Mt. Pleasant! This 4 bedroom, 3.5 bath home is situated on a private, wooded .46 acre lot with no HOA and no flood insurance required. The open floor plan features a large living/dining area with vaulted ceilings, hardwood floors, fireplace with gas logs, and tons of natural light. Off the living area is a huge screened porch with tile flooring overlooking the spacious, private fenced back yard. The chef's kitchen offers a large island with bar seating, built-in Thermador refrigerator and freezer, signature Kitchen Suite 48" dual fuel range with double ovens, Thermador dishwasher, and Taj Mahal quartzite counters. There is also a large pantry and a butler's pantry. Off the kitchen you will find the custom primary bedroom. The primary suite bath includes a vanity with quartz countertop, walk in shower and walk in closet. Next to this bedroom is the spacious laundry room and a large storage area. On the other side of the home you will find a second primary bedroom with ensuite bath, and two secondary bedrooms that share another full bathroom. There are plans available to upgrade the second primary bedroom. The windows and doors have been updated, and there are plantation shutters on the front windows. Natural gas water heater, fireplace, lanterns at front door, and whole house generator. New electrical panel and wiring. Two sheds in the backyard have plenty of storage space. The large lot offers the opportunity to add a pool and/or a two car garage with living space above if desired.
