Description

Welcome to 1412 Jackson Street, a stunning 5-bedroom, 4.5-bathroom, 3,714 sq. ft. custom home built in 2024 by Ilderton and designed by Becca Jones Interiors. Thoughtfully crafted with luxurious finishes and modern functionality, this home blends elegance, warmth, and convenience in one of Mount Pleasant's most sought-after locations. Every detail has been meticulously curated, from the African Namibia marble kitchen countertops to the sophisticated soapstone and Matarazzo marble accents throughout the home. Designer lighting fixtures and custom window treatments elevate every space, while natural oak elements add warmth and character. The home features white oak hardwood flooring throughout, enhancing its timeless aesthetic. The main level is designed for seamless everyday living, featuring an open and inviting layout that includes the living, kitchen and dining areas, as well as a dedicated first-floor office. A true chef's kitchen awaits with GE Monogram appliances, an Asko dishwasher, and a coffee bar with an ice maker, making it as functional as it is beautiful. The plaster-walled dining room adds a soft, organic texture, complementing the home's refined yet inviting design. The second level is home to the primary suite, a serene retreat down a private hallway featuring a spacious spa-like bathroom with a floor-to-ceiling tiled rainfall shower, a freestanding soaking tub and a generous walk-in closet. Four additional bedrooms, two with en-suite bathrooms, and the laundry room complete the upstairs, offering plenty of space for family, guests, or additional office needs. Designed for seamless indoor-outdoor living, the home boasts a covered back porch with Ipe decking, a heated and cooled saltwater pool, and an outdoor kitchen equipped with a grill, flattop, pizza oven, Komodo Joe smoker, and beverage fridge. The low-maintenance hardscaping and artificial turf ensure a pristine outdoor space year-round, while the fenced-in backyard with a mosquito barrier creates the perfect setting for relaxation and entertaining. Positioned directly in front of the community gazebo and outdoor fireplace, this home enjoys a picturesque and peaceful setting. Flexible living spaces make this home even more functional. The second garage, featuring a full bathroom, is perfect for an air-conditioned home gym, with available plans to convert it into a golf cart garage with an extended driveway if desired. Located just blocks away from top-rated schools including Mount Pleasant Academy and Moultrie Middle School, this home is also convenient to Pitt Street Bridge, Shem Creek, Sullivan's Island and Isle of Palms, offering endless options for dining, shopping, and outdoor recreation. Combining high-end design with an unbeatable location, 1412 Jackson Street is truly a rare find. Schedule your private showing today!
