Description

This is the Tupelo Plantation home that you've been looking for: Completely updated four-bedroom-house that is move-in ready. Nearly every surface of this home has been updated, including luxury-vinyl-plank flooring both upstairs and downstairs; Samsung, white glass kitchen appliances; natural stone kitchen countertops; all three bathrooms have been updated; and wainscoting and custom woodwork are installed throughout the house. When you walk through the front door, take note of the updated powder room with shiplapped walls and a refreshed vanity. The oak-like floors carry you into the dining and living spaces of the home. With the open concept floor plan, the kitchen sits next to your living space separated by the kitchen island. At the rear of the home is a screened-in porch that overlooks your private backyard with mature landscaping and a view of the woods behind the home. Up the stairs, you'll notice the attention to detail with wainscoting in the hallway. Both upstairs bathrooms have been updated with new vanities with natural stone countertops, matte black plumbing fixtures, Bluetooth enabled mirrors, and slate-like tile floors. All four bedrooms are upstairs, as well, and the updated luxury vinyl flooring continues upstairs to give this home a cohesive, modern look. The upstairs laundry room has been updated with a slate-like tile floor, as well. The primary bedroom has an accent wall that gives the room presence and interest. This home is complete with a two car garage with professionally installed epoxy floors and updated shelving throughout the home.
