## Description

Welcome to this breath-taking coastal ranch in the heart of Mount Pleasant. Being centrally located to 526 and highway 17 the commute is a breeze. Renovated just a few years ago this house is turnkey! Literally. Just bring your clothes. Fully encapsulated in November of 2024, new roof in 2022, and more. The first thing you notice about this home is the large open concept living area/kitchen. This home has a brand-new kitchen with white cabinets, quartz counter tops, coastal grey backsplash, and plenty of storage. The island is huge. Plenty of room to watch the kids do homework or for the entertainers is big enough to host the holiday parties. Have the family relax in the living room while you get the snacks ready. On the first floor you have 2 secondary bedrooms and the primary bedroom. The primary bedroom is large enough for a king bed, 2 bedside tables, a bench to sit on, and an electric fireplace. The ensuite features a tile walk-in shower with custom glass doors, double vanity sinks, and a walk-in closet. You have a full bathroom in the hall for visitors and the 2 bedrooms. Between the garage and the living space you have the laundry area and access to the frog that serves as bedroom number four. Would make a fantastic office for someone who works from home. Out back you have a new deck placed in November of 2024 which is perfect for those low country evenings. The backyard is fully fenced in and has a double gate so you can park your boat.
