Description

The Duvall II plan with five bedrooms, four baths, and a guest bedroom on the main floor is a must see! The Duvall II offers both a formal living room and formal dining room with coffered ceiling as well as a mudroom with an organizational room. LVP floors line the main level and upstairs hallway. The entry is amazing with a two-story foyer and high ceilings! The kitchen features a large island, quartz countertops, upgraded soft close cabinets, and tiled back splash. The chef in the family will appreciate the gourmet appliances including a gas cooktop and the built-in wall oven and microwave oven combo and a stainless-steel wall mounted hood that is vented to the outside. Relax and read a book in the bright sunroom off of the great room or BBQ on the rear patio. The great room is open to the kitchen and includes a gas log fireplace as a focal point. Upstairs you will find the primary suite, two secondary bathrooms and three additional bedrooms with a Jack and Jill bath in between two of the bedrooms. The primary suite is absolutely gorgeous with a sitting area, boxed ceiling, large primary bath with a separate tiled tub and shower and a huge walk-in closet. A large laundry room and a spacious bonus room complete this home. **Interior photos are not of actual home, colors and options will vary** Under construction Disclaimer: CMLS has not reviewed and, therefore, does not endorse vendors who may appear in listings.
