Description

This 4 bedroom/3 full bath home is situated at the end of the cul-de-sac along the Jessica Lakes' walking trail. The 3-seasons room with tile floors and vinyl stacking windows has sliding doors from the dining area and master bedroom and leads to the brick paver patio with a hot tub that does stay. The great room with vaulted ceiling is open to the kitchen with numerous cabinets, granite countertops, tile backsplash, stainless steel appliances, pantry and breakfast bar. The adjacent dining area with windows brings natural light into the main living areas. The main bedroom features a vaulted ceiling and ensuite bath with double sink, garden tub, shower and walk-in closet. The split bedroom plan affords two bedrooms with guest bath on the opposite side from the main bedroom. The 4th bedroom with ensuite bath is above the garage and could be a bonus room, home office or separate living suite. Laundry room with additional cabinets. There is gas to the property that currently is for the tankless water heater but could be for a gas range and/or HVAC system. HVAC dampers were replaced in October 2024. Electric panel is already wired for a generator. Separate storage shed in the backyard.
