This spectacular floorplan is ideal for large families who need a first floor bedroom & bath with a nice open floor plan. When walking into the home, there is a private study with French glass doors along with a formal dining room painted with an iron ore hue. From there, the home opens up into the expansive great room which the kitchen looks over making it the ideal space for family gatherings and get togethers. The freshly painted kitchen boasts a walk in pantry, large bar area w/ plenty of seating, breakfast nook, stainless steel appliances, quartz countertops, white staggered cabinets with gold hardware, and subway tile back splash. Just around the corner from the kitchen is a private, 1st floor bedroom complete with its own full bathroom and a walk in closet making it the perfect mother in law suite or guest room. On the second floor you'll find the additional 4 bedrooms, 3 of which with walk-in closets; laundry room, storage closets, secondary full bath and master suite. The master bedroom is huge with lots of windows, walk in closet and en-suite bath. In the master bath you'll find a double vanity, tile flooring, linen closet, water closet and large garden tub & tiled shower.
