Description

Just a short five-minute drive from the historic downtown Camden, you will find a delightful bungalow from the 1960s. This home has had only two owners throughout its history. It features all-brick construction, three bedrooms, and one and a half bathrooms, all situated on an oversized lot that includes a single carport and a detached two-car garage with ample storage space. The property includes a screened-in porch and a private, fenced backyard. The guest bathroom showcases the original, pristine robin egg tile, a design element that has made a comeback. The kitchen has been upgraded with granite countertops and solid wood cabinetry. In 2023, a new HVAC system was installed, and the property is connected to city water while also having irrigation sourced from its own well. Camden is known for its excellent schools and a charming small-town atmosphere, complete with a variety of local businesses, including restaurants, cafes, and boutiques.
