Each project that was taken on throughout the last 2 years was not done with intent to flip, but the renovation was taken on with much love, attention and detail for easy living and longevity. You will sense the difference very quickly upon entry. Let's start with the heart of the home, the Completely Renovated Kitchen. This brand-new kitchen that will impress even the most discerning home chef. Featuring new cabinetry, countertops, and updated appliances, this kitchen is both stylish and functional. Throughout the home, you'll find the stunning look of a combination of some refinished hardwood floors and some newly added hardwood a classic stain that adds warmth and elegance. The flooring seamlessly flows from room to room, enhancing the open feel of the home. Complementing this is new trim work and new doors throughout, giving the home a crisp, fresh feel while maintaining its cozy atmosphere. Next we will address the Major Structural Improvements. The attention to detail doesn't stop at aesthetics. Behind the scenes, the home has received significant structural upgrades, including the replacement of 80% of the floor joists, ensuring a solid foundation and long-lasting durability. Paired with newer (2017) windows, you'll enjoy enhanced energy efficiency, natural light, and comfort year-round. Fans run under the crawlspace to ensure proper ventilation and maintain air circulation, contributing to the overall comfort and efficiency of the home. The upgraded systems extend into the Electrical & Plumbing Systems. The 200-amp electrical service provides ample power for today's high-demand electronics, while the home's plumbing system has been updated to PEX lines, offering a durable and reliable water supply for years to come. To top it off, a Renai water heater provides a continuous supply of hot water, so you'll never have to worry about running out during those long showers. A few mention worthy elements are the top down- bottom up blinds allowing you to adjust the natural light and privacy in each room. The gas line to the grill is connected to the large propane tank, so no last minute or inconvenient trips to get a small refill tank. The lights are all on dimmers so adjusting the brightness throughout the day to suit your mood is an easy adjustment. Outdoor Living is one of the Lowcountry's attractions.
