- Gas

## Description

Welcome to 220 Starcrest Circle! This exceptional property is located in the highly sought-after Ocean Drive section of North Myrtle Beach. Offered for sale is a luxury custom home with five bedrooms, five bathrooms, 4,750 heated square feet, and three half baths for guests! When entering the home, you will notice beautifully coffered ceilings with a spacious living room with hardwood floors and a gas fireplace. The living space in this home has been built with discerning taste. Magnificently done crown molding and baseboard with high ceilings and wide hallways display an uncommon level of craftsmanship in this home. Finished off with custom plantation shutters as window treatments, the quality is on display. The kitchen which is adjacent to the living room, is an open floor plan design. This unique kitchen has extensive countertops, and a granite-topped island complete with a built-in butcher block. Boasting a gas range/oven and an electric double oven, triple bowl sink plus a separate prep sink, both with food disposal! An oversized pantry rounds out a kitchen any chef will be proud of. The master bedroom is a whopping 21x20 feet with a through-the-wall natural gas fireplace shared with the master bathroom. The master bath includes a tiled rainfall shower and a garden-style bathtub with a divided his and her vanity with a separate space for the toilet area offering privacy. A walk-in closet worthy of royalty will cover any of your wardrobe needs. There are two guest suites on the main level both with their private baths. A plus-sized laundry room includes a mop sink. Upon stepping out back you find a covered deck overlooking an entertainment area with a beautiful 28x11 pool that gives a resort-style feel. An outdoor fire pit, and covered patio space with plenty of seating finish off the space. Next to the pool area, you have a large freshly sodded yard with an overbuilt storage shed with power. You will find access from the front driveway via a back gate to the yard and shed. Lockable storage under the front and back outdoor staircases. The property has nearly a dozen mature palm trees with additional landscaping throughout! Pavers surround the pool and covered entertainment areas but also lead to patios, gardens, and more! The home has a central vac system covering the main residence. Let's take a look at the guest house/mother-in-law suite. Located on the ground floor, you have parking in front and direct access to the pool and entertainment area from the back. Upon entering you'll notice the very large foyer can easily be used as a bright and airy office space or Carolina room! The living room kitchen space is also designed with an open floor plan. There are two bedrooms off the living room with a shared full bath center. This space has all the comforts of the main home including a laundry room with a storage area big enough to be a "man cave". The second full bath is located off the kitchen. The property boasts a 2-car garage with multiple storage rooms and a golf cart garage with paved access from the side. Even having a large countertop with sink and cabinets in the back of the 730 square main garage, there's still ample space for cars, toys, beach equipment, etc. The area is also heated and cooled via a separate central heat pump. A half bath for convenience as well as an ample size office add to this already impressive area. The extended driveway leading up provides parking spaces that can accommodate more than a half dozen guest vehicles. Sitting on .30 acres with no HOA, new roof (2023), new HVAC, all appliances, fresh sodding in the yard, 20kw Generac backup generator system, and outdoor shower...this home is truly move-in ready! It's only a short walk to the sandy beaches of the Atlantic Ocean (.11 miles to the nearest beach access) or a golf cart ride to Main Street (.81 miles). Schedule a showing today!
