The split floor plan creates privacy for the bedrooms, while maintaining openness for the main living space in the center. As you walk through the front door into the living room, you'll notice the luxury vinyl plank flooring throughout the home, along with beautiful tall windows featured throughout the home. The living room is filled with natural light and has a fireplace with gas logs. To the left of the front door is a hallway leading to three sizable secondary bedrooms and a large hallway bathroom. To the right of the front door is the kitchen, with an island that has plenty of space for seating and entertaining, a large walk-in pantry, gas stove, and granite countertops. The dining room seamlessly branches off the kitchen. In the dining room, there are sliding glass doors to the covered back porch with a serene view of the Enoree River. The back porch also has extra room for dining or seating. Continuing passed the kitchen is the large laundry room, a half bath, and the primary suite. The primary bedroom is separated from the bathroom by a sliding barn door. The luxury primary bathroom features a soaker tub, a separate walk-in shower, his and hers vanities with built-in cabinets for extra storage, granite countertops, a separate toilet room, and a HUGE WALK-IN CLOSET AND DRESSING AREA. Back towards the laundry room is a staircase leading up to a rec room OR bedroom that has a walk-in closet and a full bath with walk-in shower. A unique feature to this home is the UNFINISHED BASEMENT. With 1600+ square feet of space, it has the potential to be made into a mother in law suite, rec room, or whatever suits your needs or desires! This grand space has already been prepped for a full bath and kitchen area. There are French doors in the basement that leads to a large, covered patio area and the backyard.
