This 6 bed/4 bath home features an open concept floor plan, main floor guest bedroom, fabulous primary suite and fully finished lower level! No detail has been overlooked from the designer finishes to the on-trend color palette. The two-story foyer welcomes you into the home where you will find a formal dining room to the right just before you enter the great room full of natural light and gas fireplace with stone surround. The great room transitions easily to the spacious breakfast area and into the kitchen complete with huge center island with room to seat four, beautiful quartz countertops, soft close drawers and cabinets, tile backsplash and big walk-in pantry. This entire space overlooks and has access to the spacious deck and backyard. Off the kitchen is a true mudroom with storage and easy access to the two-car garage. There is a spacious guest bedroom with a walk in closet and direct access to the first of four full baths in the home. At the top of the stairs to the second floor is a spacious loft that overlooks the great room and foyer and is the perfect space for a home office, exercise area, reading nook or gaming station! Surrounding the loft are three secondary bedrooms-two with walk in closets that share a large hall bath with dual sinks and a tub/shower combo. The walk in laundry is located on this floor for extra convenience and boasts a sink and plenty of storage. Rounding out the second floor is the primary suite where you can relax and unwind each night. There is a cozy sitting area just waiting for pajamas, a soft blanket and a good book! The primary bath boasts dual vanities with a makeup station between them, ample storage, dual walk-in closets and a fabulous tile and glass surround Roman shower with bench seating and dual showerheads. The lower floor is the most flexible space in the home as it can serve as a mother-in-law suite, guest suite, or a fabulous hangout spot! There is a spacious kitchenette with wine cooler, bar seating and glass front cabinets, as well as room for a table and chairs. The rec space is big enough to accommodate game tables and a sectional and leads to a large bedroom and full bath. Additionally on this level is a flex room that would make a great craft or hobby room plus an additional 282SF of storage space! The lower level has access to the patio, hot tub and backyard as well. The outside living space features a spacious deck with night lighting that overlooks the backyard and natural area around the river as well as access to the lower patio and hot tub area. The Riverstone community has something for everyone-sidewalks for jogging and walking the dog, clubhouse, pool, playground, tennis courts, walking trails, and an exercise area! Location and Layout-this one has it all!
