Description

Step into the grand entry of this luxury home with over 4300 square feet and you'll instantly notice the remarkable attention to detail and quality customizations. From the sprawling 9-foot ceilings, accent walls, archways, wainscoting and crown molding all the way to upgraded lighting throughout, this beauty does not disappoint! The executive style home office boasts stunning built-in bookshelves and drawers that span an entire wall from floor to ceiling. The formal dining room shows out with coffered ceilings and connects to the kitchen by way of a spacious butler's pantry with tasteful tile backsplash and lovely glass display cabinets. The family chef will appreciate the practical layout of the kitchen, the gas cooktop, abundance of cabinetry and countertop prep space, walk-in pantry, coffee station and a floating bar with even more storage. The adjacent breakfast room and sunroom are appointed with large windows allowing an abundance of natural light to fill up the space. The great room features a cozy corner-positioned gas fireplace, creating a welcoming focal point while it seamlessly connects to the kitchen, breakfast room and sunroom. Also located on the main floor is a bedroom, full bath and a mudroom/flex space with built-in's, a bench and soft close hinges. Make your way upstairs to the oversized loft with a row of lower cabinets suitable for a media room, home school lab, exercise equipment or whatever your lifestyle dictates. The primary bedroom is to die for with tray ceilings, a sitting room and bathroom featuring a garden tub, separate shower with bench, dual vanities, water closet, linen closet, dual walk-in-closets and a dressing area. All 3 additional upstairs bedrooms have walk-in-closets and access to 2 full baths (one is a jack and jill). The laundry room is conveniently located next to the bedrooms and is equipped with a folding table, closet, upper cabinets and a hanging bar, making laundry tasks simple and organized. Other features include wood 2" blinds, full-turn wood staircase, termite bond, tankless gas water heater, full yard irrigation system, insulated garage walls and door along with an outlet wired for a backup refrigerator or freezer. Outside you'll discover an expansive patio in the fully fenced backyard overlooking a buffer of trees and creek. The sellers went the extra mile and constructed a retaining wall with french drain and added concrete to the driveway along with a paved sidewalk connecting the front and back yards. Enjoy low maintenance living on a cul de sac lot a stone's throw from shopping, dining, medical services, interstate access and more. Make your appointment today, before it's too late!
