Description

Beautiful home less than 45 minutes to the beach. This 4 bed 2.5 bath home has a ton of character and plenty of room. Perfect for entertaining or family events, the living room, dining area and kitchen all surround the central staircase with the bedrooms neatly tucked away on the northern side of the house. The second floor has 2 bedrooms and 1 full bath at the head of the stairs. The remainder of this floor is one large room with spacious cabinets around the perimeter. This floorplan leaves a ton of room for a multitude of uses. The detached 4 bay carport has power and plenty of room for your toys and could be easily converted to a garage or workshop. This property also boasts a huge front lawn. This was the family home of an ironworker/blacksmith who has made many of the custom gates, fences, railings and other ironwork throughout the region. The home includes many wrought iron elements including a beautiful balustrade around the front porch, a custom screen on the fireplace and more. Although the old wood burning fireplace is currently non-functional, it would be BEAUTIFUL with either candles or converted to electric or gas. This home is heated and cooled by a combination of central units and energy efficient Mini splits, allowing for each upstairs bedroom to have its own temperature setting. If you are looking for a great quality home, don't miss this one!
