- Garden Tub/Shower
- Outside Access
- Walk-In Closet(s)

## Style

- Contemporary

## Description

Experience the epitome of coastal luxury at 3803B Scott Creek Drive, a stunning deepwater home on Edisto Beach built in 2021 by renowned custom builder Terry Hoff. This 4-bedroom, 3.5-bathroom, 3,312 square foot residence was constructed to the highest standards with a helical pile foundation system, oversized masonry piers, and steel beams allowing wide open spans and exceptional structural integrity. The home features high-end finishes throughout, including hardwood and tile flooring, Thermador appliances, custom quartz countertops, dual dishwashers, and a spacious butler's pantry. A formal dining room offers elegant entertaining space, while the expansive open living area connects seamlessly to the covered deck through an Origin 5-panel folding door system. Outdoor living is elevated with Ipe decking and stairs, custom metal railing system, and expansive views of both Scott and Big Bay creeks and the surrounding marsh. Smart home systems add efficiency and peace of mind, including solar panels with a powerwall that provides seamless backup power in the event of an outage, contributes power back to the grid, and keeps the average monthly electric bill under \$10. A Phyn Water monitoring system automatically shuts off the water supply if unusual activity such as a leak is detected. The home also contains a Ting energy monitoring system that alerts the owner to problems in the power system. Additional features include a private elevator, Carlisle SynTec Sure-Weld® TPO roof, deepwater dock with a drive-on float, ample storage space on the ground level, an outdoor shower, and wiring for electric car charging. Every detail of this home reflects superior craftsmanship, thoughtful design, and a commitment to performance, sustainability, and comfort.
