Description

Sometimes a well-designed floor plan can make a home feel more spacious without adding square feet. The Dorchester is the perfect example of a home with the living space you want, without all the wasted space you don't. All three bedrooms and the laundry room are on the second level, so crawling into fresh sheets just got easier. You'll appreciate the bathroom near the two smaller bedrooms while enjoying your own private bathroom with double vanity in the spacious primary suite. Head downstairs and make yourself at home on your versatile main floor. The kitchen is smart and comfortable, whether you're creating a delicious meal or relaxing by the sliding glass door in the breakfast area that leads onto your backyard patio. The Dorchester has everything you need for a wonderful life. The only thing it's missing is the memories you'll make in it. Photos are used for illustrative purposes only. Home currently under construction and estimated to be complete in May. Come learn how we can assist you with making this dream home your reality today. Call 803-397-7099 today to schedule a tour!
