## Description

The Harbor Oak is one of our more popular floor plans! When you first enter the home there is a flex room that would make a beautiful formal dining room or study. The foyer opens to an expansive open great room, dining room and kitchen area that is great for entertaining! The kitchen boasts a ton of storage with 36" painted cabinets and a butler's pantry with a walk in pantry. Lastly on the first floor is a bedroom and full bath that is great for guests or can double as an office space. Head upstairs to your master suite with a large sitting room, a large walk-in closet and en suite bathroom with tiled shower and two separate vanities. Two additional bedrooms with a bath between them are also on the second level. One of the best features of this home is the huge second loft/living room. Enjoy your morning coffee on the screened back porch! This is America's Smart Home! Each of our homes comes with an industry leading smart home technology package that will allow you to control the thermostat, front door light and lock, and video doorbell from your smartphone or with voice commands to Alexa. \*Photos are of a similar Harbor Oak home.
