Description

This beautiful Kingsbridge home is tucked away at the end of a small cul-de-sac providing a wonderful private oasis while still having the convenience of a neighborhood and being close to Five Forks. This 4 bedroom, 4 bath brick home is loaded with space and options to make this home live perfect for any stage of life. As you enter the graciously sized foyer you are flanked by the dining room to the right and the living room to the left. The living room has a lovely fireplace and would also make a great music room. The primary en suite bedroom is tucked away in the back left of the main floor allowing for main level living. A spacious two story den is the center of activity on the main level. The kitchen - with a great island, the breakfast area, a powder room, a true office, the laundry room and a wet bar round out the interior of the main level. The second level of the home offers 3 generously sized bedrooms; one bedroom has it's own en suite bath, the other bedrooms share an oversized jack and jill bath. There is also an additional room on the second floor that is currently being used as a second den/office, but is a great flex space that would also work as a game room, home gym, home school room. The exterior of this home is incredible with a built-in pool, hot tub, trees for privacy, extra parking pad, and did we mention privacy? This back yard could be a wonderful place to relax and enjoy time with your family and friends.
