Description

7 Crosswinds Way is a traditional brick beauty that flows well, has tons of flexibility, and boasts all of the amenities of Silverleaf while being tucked away in a quiet cul de sac toward the back of the neighborhood. Upon entering, the foyer greets you with gleaming hardwoods that run through the formal living room and into the formal dining room. New hard wood floors have been added upstairs. From here there is direct access to the well appointed kitchen, harboring loads of bright, white cabinetry and expansive, complementary stone counter tops. Between the center island, breakfast nook, open plan leading right into the grand great room - with a fireplace, cathedral ceiling, and built-ins - and access to both the screened porch and deck just outside, this is undoubtedly a gathering space to envy. Conveniently located just around the corner, a full bathroom, first-floor bedroom, and large laundry round out the main level. At the top of the stairs, the flex room continues to give more options with two areas, a huge closet. Down the hall, bedrooms 3 and 4 flank a second full bath with separation between the water closet and vanity areas. Finally, you arrive at the Master bedroom, with plenty of room for just about any sized furniture suite, views of the park-like back yard. The primary bath has been remodeled with a tub and separate glass shower. The house also has a new in ground pool with sitting area. A perfect place to relax and take in the views.
