Description

The Warren plan with elevation B is a two-story plan featuring six bedrooms and three bathrooms. Upon entering the home, you are greeted by a flex area that is perfect for a dining space or an office. Further down the hallway, you will find the open concept eat-in, great room, and kitchen. There is a secondary flex space with a private walk-in closet adjacent to the common areas that can be a guest bedroom. A full bathroom and organizational space with an optional desk or bench and cubbies sit just inside the entrance of the two-car garage. Upstairs, the primary suite features a walk-in closet, dual vanities, and a garden tub with a separate shower. There are four additional bedrooms upstairs that all feature private walk-in closets and share conveniently located full bathroom. A versatile loft space completes the second level!
