Description

This three story end unit features our "more house than townhouse" design! This unit is under construction, but your client still has time to personalize their townhome with options and selections of their choice. Level 1 features a 2-car side by side garage, foyer with an open stairway which is open to all three levels and a flex/bedroom, with an en-suite full bath. On level 2, you will find an open floor plan with plenty of space to relax with family and friends. Off the great room and kitchen is the sunset porch. Level 3 is a private space designed for the owners! We have enlarged the loft space and added a window. The owner's bedroom with en-suite bathroom features a double vanity, walk-in tile shower, and a spacious walk-in closet. The laundry closet completes the amenities on level 3. The listing agent is designer/developer/builder.
