Description

Welcome to the established sought-after Northwood neighborhood. This reputable community requires no HOA and is in one of the most desirable locations of Myrtle Beach. It's just a golf cart ride to all the major conveniences of daily coastal life including the beach. This large 4 bedroom, 3-bath brick ranch-style home is professionally landscaped with many palm trees and an assortment of native plants and trees. Nestled on 1/3 of an acre this home showcases coastal living at its best. The irrigation system keeps the lawn always looking its best. The fenced-in backyard has a large pool with a covered patio and a convenient poolroom. This approximately 2,700 square-foot home has a large carport that leads into the kitchen. The kitchen has stainless-steel appliances; plenty of countertop space including a peninsula and a window above the sink. There is a separate formal dining room area for formal gatherings with open access to the formal living room. The modern luxury vinyl plank flooring covers the main areas of the home while the roof is about 7 years old. Two heat pumps make sure your home is always at a comfortable room temperature. The windows have storm window coverings. This home is perfect for indoor and outdoor entertaining. The large family room is ideal for hosting get-togethers or to sit back and watch a movie. What sets the reputable neighborhood of Northwood apart is its convenient coastal living location. It is practically in between Barefoot Landing and Broadway at the Beach, quick golf cart ride from the beach (the Grand Strand has 60 miles of beach coastline), and close to restaurants, shopping, hospital and medical facilities. Myrtle Beach is known as the "Golf Capital of the World" with over 90 golf courses, ranging from 70 championship golf courses to family-friendly mini-golf courses. Myrtle Beach also has a wide assortment of musical venues, ranging from small coffeehouses to big-stage productions of music theaters. Buyers are responsible for verifying square footage.
