Description

This property is a wonderful opportunity to enjoy the best of both worlds, peaceful country living with modern conveniences. The home's 1,944 sq ft offers ample room, and the primary suite with its additional space for an office and a large walk-in closet sounds like a perfect retreat. The split bedroom floorplan is a great feature for maintaining privacy between family or guests. With 2.89 acres, you'll have plenty of space to create your own outdoor oasis, whether that involves gardening, setting up recreational areas, or simply relaxing and enjoying the natural surroundings. The outdoor amenities, including a 12x32 Tiny Home, an 18x40 Carport with an additional storage room, and a 10x6 storage shed, provide plenty of options for extended living spaces, hobbies, or extra storage. The lack of HOA restrictions is a bonus, giving you more freedom to make the property your own without restrictive covenants.
