Description

Welcome home to this one-of-a-kind property, set on 2 acres of peaceful country living! This unique floor plan offers a sprawling layout mostly on one level, with contemporary updates throughout. Enjoy the outdoors in your huge inground vinyl-lined pool, visible from the expansive screened-in porch, surrounded by oak trees, crepe myrtles, and fruit trees for a serene escape. Vaulted ceilings run throughout the home, creating an airy and open feel. Step into the grand foyer and down into the great room, centered around a stunning stone wood-burning fireplace. The home's centerpiece is a spiral staircase, visible from most rooms, offering a beautiful architectural focal point. The updated kitchen features a cooktop, bar area, new cabinets, butcher block counters, and a tile backsplash. Perfect for hosting, the kitchen opens to the dining room, creating a seamless flow for entertaining. Upstairs, two large bedrooms are connected by a Jack and Jill bathroom with a separate water closet. Downstairs, a long hallway leads to the master suite, with additional bedrooms, bathrooms, and an office along the way. The spacious master suite boasts skylights, sliding glass doors to the porch and backyard, and a one-of-a-kind bathroom with dual counters and a walk-in closet. Luxury vinyl plank flooring is installed throughout the home—no carpet! The property also includes a separate guest suite with a full living room, kitchen, bathroom, and two bedrooms, with its own power connection and bill. This home is fully completed with a few minor things left - don't miss out on this incredible opportunity!
