Description

Beautiful Craftsman style Home in Historic Downtown Walterboro Built approximately 1910 with Early Century details throughout. This fine home has 4 large bedrooms, 2 full baths. The First floor includes 1 Bedroom w/ Fireplace and a Built-in Book Case, perfect for a ground level Master, Mother In Law Suite or Study with a full bath just next door. The livingroom is spacious with a Fireplace and french doors leading to the formal Diningroom. You will continue on to the breakfast room which boasts a built in china hutch, and a coffee bar. The kitchen is bright and cheerful with a small removable island. Off of the kitchen is a laundry, pantry/mudroom that leads to the beautiful back yard. The pantry has a door in the floor to access cellar. The second floor has 3 very large bedrooms with walk in closets, full bath, dressing room/nursery and a large sleeping porch/sunroom. There is so much space in this home it even includes a fully floored attic with a full staircase, which could easily be finished to add square footage to this fine home. The secluded back yard has a 375 sq foot Old Carriage house that was moved to the property in 1890. It is currently utilized as storage. There is a nice jasmine cloaked pergola over a patio that needs a little tlc but with a gardeners touch will be a beautiful place for entertaining. The two car garage has one bay access from the front and two doors from the back of home.
