Features

Description

Are you ready to embrace the freedom that comes with owning your own hunting preserve? The Juniper Road Tract is located in south east Barwell County with a small portion in western Bamberg County and just a few miles off of Hwy 321 outside the town of Olar. This amazing property has been meticulously managed over the last several years for trophy whitetail deer as well as eastern wild turkey. Although those have been the main focus, this property is home to many species of game including wood ducks, quail, dove and several others. This parcel has approximately 2,200 ft of road frontage on Juniper Road and 2,700 ft on Cooks Mill Road which creates the western and northern boundary's of the property. George's Creek runs for approximately 1,600 ft creating the back eastern property line and gives this property a beautiful low country feel that is desired by many. This tract has an amazing road system with food plots and shooting lanes throughout. The proposed +/- 125 acre parcel is part of a larger tract that is also available for purchase. The plat is in the document section. Schedule your showing today!!
